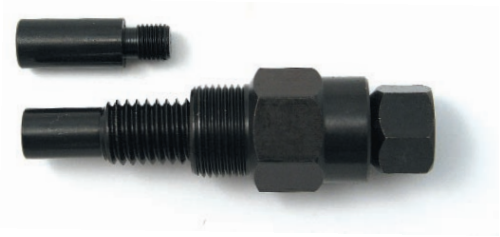
### 7550 A/C COMPRESSOR/CLUTCH SERVICE KIT

For removing and installing Clutch Hubs and troubleshooting Compressors and Clutches. Includes five Clutch Remover & Installer Tools to service the following systems:

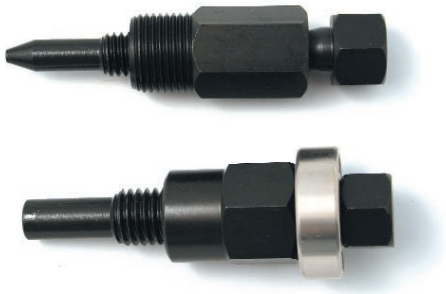
* Delphi/Harrison A6/R4 SAE
* Delphi/Harrison DA6/V5, HR6/R4 Metric
* Chrysler C171, Ford FS6, Hitachi MF, Tecumseh HR980, Nippondenso 6P/10P
* Zexel (Diesel Kiki), Mitsubishi
* Sanden SD5 & 7

Also includes a Universal A/C Clutch Holding Wrench. All packed in blow mold case with instructions and A/C specification chart.



### 7500 A/C CLUTCH PLATE REMOVER & INSTALLER

Removes and installs clutches on GM DA6 and V5 compressor clutches with 9mm threads, without removing the retaining ring.



### 7539 GM A/C COMPRESSOR CLUTCH REMOVER / INSTALLER

Services GM A6 and R4 compressors with SAE threads. Strong enough to remove even stubborn clutch plates. Installs clutch without damage. Not for clutches with metric threads.

### 3454 4 PC. A/C DISCONNECT TOOL SET

Separate spring-lock refrigerant pressure lines on A/C systems on most late model Ford, Chrysler and Jeep vehicles. Spring-loaded design and durable plastic body. Includes the following sizes: 3/8", 1/2", 5/8", 3/4"

### A934 BI-METAL THERMOMETER

Reads temperature of air conditioning systems and radiators. 1" dial gauge reads from 0º to 220º Fahrenheit. Stainless steel stem is 5" (13cm). Includes plastic case and pocket clip.
